

Animal ID Microchips (2.12*12mm)

ZS006 is a kind of syringe that designed exclusively for animals. It contains a disposable syringe, a parylene coating microchip, 6 one-dimensional bar code spans and a sterilized paper-plastic packing pouch.

ZS006 meets all international standards of animal identification (ISO 11784/ISO 11785). Each syringe is produced using top quality European chips with read/write capability and features unique data security. Coupled with Fofia Tech reader series, ZS006 provides a beneficial solution in animal breeding, slaughter management and animal identification.

This syringe is light, handy and cost saving comparing with other similar models.

Microchip Specification	
R/W standard	ISO11784/5 FDX-B
frequency	134.2KHz
size	Ø2.12*12mm
anti-collision standard	IP67
Others	Covered with parylene
period of validity	10 years
storage temperature	-20°C to +50°C
operation temperature	0°C to 50°C
Transponder Syringe Specification	
Color	White
Weight	6.86g
Length	111±2mm
Width	50±1mm
Others	
Injection Material	PP
packing manner	20 pcs/bag
sterilization	EO gas, 5 years' guarantee
Bar code label	6 adhesive-stickers
International	International Committee For Animal Recording (ICAR)
